Greetings and welcome to Roadrunner Country!

It is a pleasure for me to welcome you to the UW-Richland campus. I can tell you that you’ve made a great choice. Our campus combines friendliness with academic rigor. We want you to dream your dreams here and go out into the world and realize them.

Beginning an undergraduate education is perhaps the most exciting thing you will do in your life. New things bring with them both fear and excitement. My advice to you is to get involved on campus. Show up at class each day and do your best. Reach out to your instructors and fellow students. Become an active member of the campus community. If you do that, you will feel at home. You will have a meaningful experience. And you will succeed.

If you’re reading this, you have the UW-Richland Student Planner and Handbook in your hands. My advice to you is to use this planner. Planning is the first step in managing one’s time. Plan your days, set some goals, and find time for recreation, too.

Finally, please remember that as your dean I am always willing to help you. My job is so much more pleasant if I have opportunities to meet with you and get to know you. If I know you, I can be your champion.

Sincerely,
Dr. Patrick Hagen, CEO/Dean

Associate of Arts & Science Degree

As a UW-Richland student, you have the option of pursuing the Associate of Arts & Science Degree prior to transfer. This degree is the foundation for many majors in the UW System and is generally recognized by all UW campuses as fulfilling the university-wide, college and school general education requirements. It’s a very useful transfer “tool” and indicates one more milestone in your education.

Degree Requirements
1. A minimum of 60 credits is required.
2. The UW Colleges General Education Requirements must be fulfilled.
3. At least 24 of the 60 credits must be within the UW Colleges, or at least 12 of the last 24 credits must be earned within the UW Colleges.
4. A student must have a cumulative grade point average of 2.0 earned at the UW Colleges and a 2.0 overall GPA in credits applied to the Associate of Arts and Science degree.
1. Students must be enrolled in the UW Colleges during the semester in which the degree requirements are completed or have earned 60 credits prior to transferring from a UW College to a baccalaureate degree granting institution.

General Education Requirements

I. Core Requirements
Grade of “C” or better in or exemption from the following:

WRITING - ENG 102
MATHEMATICS - MAT 108 or MAT 110

The writing and mathematics requirements and their prerequisites may not be used to satisfy a breadth requirement when used to satisfy a core requirement.

II. Breadth Categories
FINE ARTS & HUMANITIES
A student must earn a minimum of 9 credits with at least one course designated as Fine Arts and at least one course designated as Humanities.

MATHEMATICAL & NATURAL SCIENCES
A student must earn a minimum of 11 credits in this category. A minimum of 8 of these credits must be in at least two disciplines of the Natural Sciences and must include one laboratory science course.

SOCIAL SCIENCES
A student must earn a minimum of 9 credits in this category. The courses must be selected in at least two disciplines.

APPLICATION & PERFORMANCE
A student must earn a minimum of 3 credits in courses designated as Application & Performance.

ETHNIC STUDIES
A student must earn a minimum of 3 credits in courses designated as Ethnic Studies. Ethnic Studies courses may also be counted toward another breadth category.

INTERDISCIPLINARY STUDIES
A student must earn a minimum of 3 credits in courses designated as Interdisciplinary Studies. Interdisciplinary Studies courses may also be counted toward another breadth category.

ELECTIVES
A student who has met the core requirements and other breadth category minimums may complete the 60 credit minimum requirement with courses in this category.

ASSOCIATE OF ARTS & SCIENCE DEGREE WITH EMPHASIS: Students may opt to earn their AA&S degree with an area of emphasis. See your academic advisor for more information. Areas of emphasis presently available are:

- Anthropology
- Biological Sciences
- Business
- Chemistry
APPLYING FOR THE ASSOCIATE DEGREE: If you'll be completing requirements for the AA&S degree during the 2015-2016 academic year (fall/spring/summer sessions), be sure to complete the “Application for Degree Candidacy” form available in Student Affairs. December 2015 candidates: file by November 1st May & Summer 2016 candidates: file by February 15th

What is a discipline?
Because some breadth categories require courses from different disciplines, you and your advisor will want to refer to this list as you plan your course of study. Keep in mind that Biological Sciences is a single discipline; any course listed within the Biological Sciences—even though they may have different names (such as biology, zoology, natural resources)—are counted as a single discipline.

In addition, the Student Affairs Office provides academic advising assistance when needed.

**ACADEMIC STANDING** Every student is expected to maintain certain standards of academic achievement in all work at the University. The University has established these standards in terms of the quality of work, as measured by semester and cumulative grade point averages, and the quantity of work satisfactorily completed, as measured by the proportion of the credit load completed each semester. Good standing is the status assigned when your semester and cumulative GPA is 2.0 or higher.

**ACCESSIBILITY** People with accessibility issues will find UW-Richland buildings are on one level with accessible ground level entrances. Special parking permits can be issued by Business Services to those who need to park closer to campus buildings.

**ACCREDITATION** As part of the University of Wisconsin Colleges, the Richland campus is fully accredited by the Higher Learning Commission and a member of the North Central Association.

**ADDING COURSES** Adding a semester-long course to your class schedule is generally possible during the first two weeks of the semester. For courses meeting less than 12-weeks, the deadline is prorated. Consult Student Affairs if you have a question. The deadline for adding online courses is strictly limited and precedes the start of any given semester. See the Campus Information Guide available on the campus website for more info. Once classes begin, you must obtain instructor approval to add a class using add forms available in Student Affairs. Changes to your registered class schedule should be made in consultation with your academic advisor. Once an appropriate change has been determined, just log-on to PRISM.

**AED LOCATIONS** Automated External Defibrillators (AED) are located in the Roadrunner Café and Roadrunner Gymnasium.

**ALCOHOL AND OTHER DRUG USE** The use and sale of alcohol and/or illegal drugs is prohibited on campus. Alcohol and Other Drugs Educator Coordinator is Wendy Seegers (wendy.seegers@uwc.edu).

**AUDITING** With instructor consent, you may audit a course. Audited courses carry no degree credit, do not count toward your GPA, and do not count toward full-time attendance. You may change from audit to credit status during the same period allowed for adding a class, and you may change from credit to audit during the period allowed for dropping a course. For further information, contact the Student Affairs Office.

A student may challenge information in his/her records that he/she believes to be inaccurate, misleading or inappropriate. The University has adopted a policy statement implementing all provisions of the Act. A copy of this statement appears in the University of Wisconsin Colleges Catalog. The UW Colleges, in accordance with the Act, has designated the following as “directory information” that is available to anyone unless a student asks to have it withheld: name, address (including e-mail address), telephone number, date of birth, dates of attendance, part-time/full-time status, degrees and awards received, major field of study, participation in officially recognized activities and sports, and previous educational institution attended. See the online UW Colleges Catalog for further information concerning payment of tuition and tuition refunds. Please see: http://uw.edu/catalog. Unpaid fees, library fines, parking fines, and failure to return textbooks will result in a hold being placed on your educational records. This may prohibit you from registering in the future and you will not be able to receive a transcript of your academic record.

**FINAL EXAMINATIONS** Final exams may be given during the final examination period designated in the Course Schedule. If you have more than two exams on one day or two exams scheduled at the same time, you should arrange with one of your instructors to take one of the exams at an alternate time. If such arrangements cannot be made, the instructor of the course of lower enrollment will schedule an alternative exam time. These arrangements must be made at least one week prior to the final exam period. You will have the opportunity to review your final exams or discuss your final evaluations with the instructor up to one semester after the course is completed. (Senate policy, No. 4-Final Exam Policy)
**FINANCIAL AID** Financial aid money is intended to help meet college expenses and comes in three main forms: grants, loans, and work-study. You must apply to be considered. The electronic application is available at [www.fafsa.ed.gov](http://www.fafsa.ed.gov) and paper applications are available in Student Affairs. Students receiving financial aid are expected to maintain good academic progress in order to continue eligibility for financial aid. The Satisfactory Academic Progress (SAP) guidelines include both quantifiable and qualitative measures, including a consideration of credit completion rate (you are expected to complete 2/3 of the credits attempted) cumulative grade point average; and total number of credits attempted. Contact Student Affairs for the complete SAP policy for the UW Colleges.

**FINANCIAL AID & "CENSUS DATA"**
The financial aid you may receive for FALL 2015 will be paid based upon the number of credits for which you are registered at the end of the day on September 16, 2015; this date is applicable if your financial aid application has been received by the UW Colleges on or before that date. Students who add credits after September 16 will not receive additional financial aid for the added credits.

The financial aid you may receive for SPRING 2016 will be paid based upon the number of credits for which you are registered at the end of the day on February 5, 2016; this date is applicable if your financial aid application has been received by the UW Colleges on or before that date. Students who add credits after February 5 will not receive additional financial aid for the added credits.

Students whose financial aid applications are received after the "census dates" indicated will have their financial aid based on the number of credits registered at the time aid is disbursed.

**GPA** Access a GPA calculator on the UW-Richland campus website. Please see: [https://richland.uwc.edu/academics/resources](https://richland.uwc.edu/academics/resources)

**GRADING SYSTEM** Your grade point average is determined, whether for the semester or on a cumulative basis, by dividing the total grade points per credit earned by the total number of credits attempted. Semester grades are reported by letter only. Each letter grade carries a specified number of grade points per credit; thus a "B" (3.0 grade points per credit) in a three credit subject yields nine grade points. The scale of grades and grade points is:

<table>

*Note: When reporting a grade of ‘F’, the instructor will also report a number corresponding to the student’s “week of last participation” in the course for financial aid purposes. This is the last week of the term for which there is documented evidence of the student’s participation in the course. On official transcripts only the mark ‘F’ will be reflected. The numeral for “week of last participation” will be reflected on internal, unofficial transcript grade reports only.

The following symbols are used where grade points are not assigned:

- **CO** – Audited course completed
- **NC** – Audited course not completed
- **I** – Incomplete
- **ND** – Used for non-degree credit course
R – Repeat. Used in developmental English and math where the student is making progress but has not mastered the subject and must repeat the course. Is also available as an instructor option in ENG101 and MAT105.

S – Satisfactory. A passing grade for courses taken on a pass/fail basis.

U – Unsatisfactory. A failing grade for courses taken on a pass/fail basis.

W – Withdraw

ID CARD (STUDENT) UW Colleges photo identification cards will be provided to all students at final registration. These cards are designed to last four semesters (or as long as you continue as a UW-Richland student). The student ID card identifies you as a UW-Richland student and helps gain you admission to certain events at no or reduced cost and admits you to the Symons Recreation Complex (SRC) pool during "free" periods (when SRC classes are not scheduled). The bar code on your ID is used by the automatic check out system when you borrow materials from the campus library. You will be issued a validation sticker each semester at Final Registration; it is proof of your current UW-Richland student status. The first card is free; the replacement fee is $5.00 see Karen Stoltz (Melvill Hall).

INCOMPLETES An incomplete may be requested if the student carried a passing grade until near the end of the semester and then because of substantiated reasons beyond the student's control, was unable to take the final exam or complete a limited amount of work.

You are responsible for consulting with the instructor to request and determine the work to be completed. The instructor will file a detailed report of the work to be completed to allow you to finish the course.

You must remove the incomplete before the next semester. If you and your instructor agree, an exemption to the time limit may be made in writing to the Student Service office. If you do not remove the incomplete with the time limit, it will be replaced by the relative grade reported by the instructor on the final grade sheet. You may remove the incomplete by repeating the course. In that case, the regulations for repeating a course will apply.
