In partnership with:

Come and join the summer experience with the UW-Richland STEM Program. Put on your thinking cap and roll up your sleeves to explore the fields of Science, Technology, Engineering, and Mathematics.

Sponsored by the UW-Richland Office of Continuing Education and Outreach and UW Colleges with a grant through the UW System and Private Donors.
Experience Life as a College Student at UW–Richland

S.T.E.M Program

UW-Richland’s middle school program offers students hands-on experience through dedicated instruction to provide students the opportunities to practice new skills, create friendships, experience a glimpse of college life, and think about their career path. Courses we have included in the past are: Astronomy, Chemistry, CSI, Ecology, Geocaching, Math Perplexors, Physics, and Robotics.

S.T.E.M Program provides a variety of academic courses, team building, recreational activities, and field trips aimed at fostering a life-long love of learning and future academic development.

Students stay at the UW-Richland’s modern residential housing facilities, nestled in the beautiful hills of Southwestern Wisconsin’s driftless region. Night recreational activities are also planned for students.

Students are expected to participate fully in all classes both indoors and outdoors. This program may include a field trip for further exploration.

A banquet and graduation will be held at the end of the week to celebrate!

Eligibility

Enrollment in the UW-Richland program is limited. Current 6th - 8th grade students are eligible to apply for the S.T.E.M. program. Students must fill out an application, which includes an essay portion, by April 15, 2015. The cost for the program is $350 unless a student meets one of the below criteria:

- Family qualifies for free reduced lunch
- Student is a minority student
- Parents do not have a bachelors degree

Richland Center WI 53581

Applications will be reviewed by a committee and can be found on our website, by emailing rlnce@uwc.edu, or calling 608-647-6186 x4.

“UW-Richland has changed my entire perspective on college, in a good way, of course. It’s not as scary as it seems.”
